The Acropolis

Cargoes, Which Is Yours?

1

Painted sails of Iris woof, gleaming in the sunshine,
Hull of shining substance from castle-lands of Spain,
With a cargo of tinsel,
Hopes and visions, —
Shining and flitting, and coming again.

2

Sails of stout sail-cloth, to hold the breezes,
Timbers laid with science and seams fast bound,
With a cargo of firm nerves,
Strength and swiftness,
Things well accomplished and answers found.

3

Sails a little patchy, and not without smudges,
Paint somewhat grimy and rigging not too fast,
With a cargo of ups-and-downs,
Rather spotty records
Failures, successes, but port at last.

In appreciation of her friendship
and guidance we, the class of

cate this book.

Alma Mater Song

Over many a city old,
Famed in song and story,
Temple grey and castle hold
Catch the sunset glory.
So our Alma Mater proud
Looks o'er vale and meadow,
High between the sailing cloud
And its drifting shadow.

For her colors, first the blue
Of the April valley;
Then December's wintry hue
When the storm winds rally,
Newark High, thy fame we raise,
Many voices blending;
Through the years we pledge
thee praise
Loyal to Life's ending.

The Blue-Peter

Through the alleys and winding streets leading to the harbor, a group of lusty seaman pushed or jostled their way toward the wharves. Even then, above the roofs of the last block of houses could be seen the mast head of a certain merchant vessel for which the men where bound.

Merrily floating on the breeze, jaunting its colours from the tip of the mast, was a small blue and white flag; the Blue-peter of course. The more prudent members of the crew were already aboard making ready for immediate sailing. They realized the importance of preparation for the voyage and were in readiness when the signal came. The Blue-peter flew aloft. The time had come.

This book, a symbol of our departure from Barringer is our Blue-peter. It has been hoisted to the masthead. The hour of our sailing has arrived. We have spent a number of years in preparation for this, our voyage of life,

upon which we are about to embark. Some have diligently attended to their duties, and, as a reward, will be permitted to leave the school, our port of preparation, with their classmates. Others have heedlessly neglected their obligations and will remain on the wharf when the good ship of Twenty-eight sets sail.

It is with mixed sentiment that we take leave of the place we have come to love so dearly: happiness, to have successfully left behind one of life's milestones; regret at the termination of our relation with our dear old Alma-Mater. The friendship, guidance and instruction of the faculty have become a big factor in our lives, and in years to come, we will appreciate it increasingly. The companionship and spirit we have enjoyed here will remain with us throughout life's long voyage.

Our time has come. Barringer has always stood for the highest ideals in life. Let us be true to this our great tradition, whether seas be rough or smooth. The Blue-peter flies aloft; we must go.

CLASS SONG

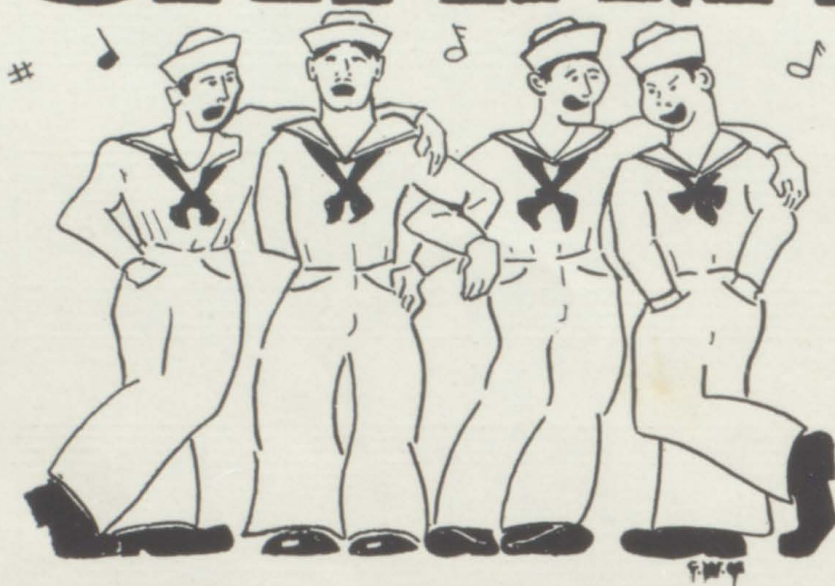

II

Oh, long we've prepared
for our voyage is long,
And now that we're ready
we'll burst out in song,
Yet sad is the time,
for 'tis now we must part,
With nothing but memories
to lighten each heart.

III

When far we have sailed
on the great sea of life,
With brave deeds of glory
and deep scars of strife,
We'll gather together,
we'll gather once more,
Old class mates of Barringer,
as comrades of yore.

CHANTIES

A Blue-Peter Chanty

She lay in the harbor with her rainbow sails a'flying,
And the sun turned her painted prow to gold,
The sky was blue above her, and the green waves gently tossed her
Bearing all her spoils in triumphant pride of old.

She had come into the harbor with her sails all torn and tattered,
And the moon gently veiled her tempest scars.
But her deck was filled with treasures and she sailed—a joyful
victor,
Riding through the waters silver—dappled by the stars.

And now she lies at anchor 'ere she starts upon her voyage.
And the wind blows the blue flag floating high
The farewell flag a 'flying, splash of white within the azure
"Hail and farewell" says Blue Peter, 'gainst the sky.

The Voyage

1

Life — a sea of sorrows, joys, and fears
O'er which we all must sail a bark
Alone — the voyage stretched through troubled years,
Through weather changing — clear then dark —
Ending in port serene at last
If we but hold the rudder fast.

2

Hope — the wind that blows and cheers us on —
A constant wind, steady and strong —
If faith in God and self is still not gone —
Through spars and ropes an urging song —
It bids the captain sail his craft
Right onward, heeding not what's aft.

3.

Friends — the bells, the bouys, the gongs, and stars,
The ever serving aids, to keep
The vessel clear of hidden rocks and bars
And guide her o'er the briny deep.
Without them ships would come to grief —
Would flounder on some hidden reef.

4

Faith — the anchor dropped in threatening storm
To hold us on our charted way, —
The last resort, to keep the ship from harm
Till from dark clouds breaks forth the day —
To keep the bearings through the strife,
The channel o'er the Sea of Life.

5.

God — the beacon, distant, yet so near,
A comforting and guiding light
To men in hours of doubt and blinding fear, —
A beacon shining clear and bright,
Striving by it the way to win,
The seamen will at last come in.

The Ballad of the '28

I.

Behold the good ship '28,—
Set forth on the wintry sea.
On many a reef, it nigh came to grief,
As you shall presently see.

Near 200 souls set sail on this ship,
And the sky was clear that day,
"O the journey's begun, 'twill be jolly good fun"
Thought we, optimistic and gay.

There was Sammy and Rose, and Emmy and Kate
And Eddie and Helen and Paul,
And many more too, 'twas a merry ole crew
That answered the sea's haunting call.

We first came to grief when we crossed the path,
Of the ship June '24.
"Get out of our way!" They started to say,
But we waited to hear nothing more.

They cut the wind from out our sails,
They made us sing very small;
Then changing the tune, they began pretty soon,
To patronize one and all.

A reception they gave us, that ship '24,
When the water was sapphire blue;
They gave us a treat of lollypops sweet
But the others had tea, — and cake too.

And scarce had we reached the ship's first port,
When the skies grew heavy as lead
And from the lookout, we heard the shout
"Ho! Ho! there! breakers ahead!"

And the rocks ahead were high and sharp,
And the sea foamed, fierce and white;
And we pulled at the ropes with fluttering hopes,
And tried to still our fright.

La Mathetique was the name of one,
And Lingua Latina another,
And other sharp reefs increased our griefs,
And one was as bad as the other.

But though some were lost on the fearsome reefs,
And some went down in the sea,
With courage strong, and struggles long,
We reached First Port safely.

II.

Best pass the next year with a word,
For nobody thought of us now
Our rigging was torn, our paint looked forlorn
We were "suffer-mores" — (And how!)

We were chased by the storms and lost our course,
And we wandered quite astray;
But the Admiral was kind, and he helped us to find
The path that led back to our way.

And the sea was calm and smooth again,
And we kept to our course at last,
And it seemed quite a lark, in our sailing bark,
That dipped through the waves so fast.

But then, 'ere long, the billows rolled,
And again the storms were a-blowing,
But we held fast, and to the last,
We kept our good ship going.

III.

But the third sailing came; 'twas not the same
As the others we had seen,
Our ship gained speed, we cried, "Indeed!
It is time to scrub and clean."

We painted the ship and patched the sails,
We polished the brass 'till it shone.
And we ploughed through the deep, with a mighty sweep,
And made our proud way alone.

We chose a pilot, kind and wise,
Who watched our course with care.
Who steered us straight, and guided our fate,
Though tempests raged through the air.

And Bill was our Captain, and Marion first Mate
And Lois kept the log of our boat.
Our purser was Wylie, who snaked our dues slyly
And Holden our History wrote.

Now gayly we slipped through the parting waves,
With the great North star for a guide.
On, on o'er the deep, with a proud graceful sweep
As over the billows we ride.

About the middle of that long stretch,
A meeting was held, of the crew —
"They have toiled at their task, it is all we can ask;
A change in the roll is now due."

Then Chris was our Captain, and Lois, First Mate,
Marcel kept the Log of our boat.
Our purser was "Van", — he collects all he can,
And Holden our history wrote.

Soon after, again, a meeting was held;
But this was of social intent
And a lady who knew, spoke of France to us too,
And the cake and the punch quickly went.

On November the 1st, while the witches still prowled,
We gave a gay Hallowe'en dance.
And late on the deck, we danced without check,
And at games we all took our chance.

And a month rolled by, and winter arrived,
And with it came Noel so gay;
And in 92, we'd a party, quite true,
Though t'was only the 21st day.

Three years had gone by, some had dropped by the way,
But the rest sailed on through the sea.
We had had some hard knocks, and had just escaped rocks,
But we had safely made Port Three.

IV.

But now we were launched on our last full year,
We would keep to our course, straight and true,
And the storm-winds may blow, but onward we'll go
Fighting for Barringer's blue.

For Ed was our Captain and June was First Mate
Lois kept the Log of our boat.
Our purser was Wylie, who snaked our dues slyly,
And Holden our History wrote.

Then we sighted a city, one morning fair,
Nestled close to a rippling bay;
And shortly they said, "In that city ahead
You may take shore leave to-day."

And a meeting was held of our noble crew,
And we planned to make money that day.
"A theatre party," cried out a good hearty,
"And tickets we'll sell right away!"

No sooner 'twas said than done, you may guess,
And the people all crowded to see —
When evening drew nigh, stars smiled from the sky,
At the treasures we hoarded with glee.

A reception we gave to the ship '27
And all had a jolly good day
We danced and we sang 'till the old rigging rang
As we speeded the ship on its way.

V.

And now we were ready and in our port
As we welcomed the tempest's loud wail
We had proven our skill, we would prove it more still,
And we skimmed o'er the waves thru the gale.

And Ed was our Captain, D'Alessandro First Mate
Lois kept the Log of our boat
Our purser was Fahy, he gets what he may
And Holden our History wrote.

And now first we welcomed the ship '32 —
A reception for young and for old.
Our program was snappy, we made them quite happy
We went o'er the top, we are told.

Again we had shore leave, again we got treasures,
A theatre party we planned
We got enough gold when our tickets were sold
To finance us till we should land.

There was frolic and fun as the end drew near
With work, we mingled much sport
And our neighboring ship their colors did dip
To wish us good speed to our sport.

And now we have reached our last home port
And our anchor over we cast.
We have kept to our ship, we have ended our trip
Blue Peter afloat at the mast.

The Stadium

I

Early morning of the new day,
Of the new day, not yet started
In the grey mist of the stadium,
Stadium huge with seats surrounded,
Scarcely visible in the dim light
Of the morning of the big day,
Out upon the field is quiet
All among the tiers is stillness
In the stadium,
All is quiet.

II

Late the morning of the new day,
Day that is no longer new day
Colors varied, colors different,
Many bright and hueful colors
Many loud and vibrant clamors
Sounds and colors intermingling
Fill the greatness of the stadium,
Thronged with happy shouting humans,
Humans bent on having pleasure,
By relieving pent emotions
In the stadium
All is color.

III

In the evening of the old day,
Day that now to dusk retires,
Stands the stadium dim and quiet,
After all the day's excitement,
After all its varied feelings
There to stand and while the full moon,
While the great white palefaced full moon,
Slowly up its arc ascending,
To its high place in the sky,
There to gaze with peaceful visage
Softly on the place of turmoil,
Now so peaceful, now so quiet
On the stadium now so tranquil
In the stadium,
All is quiet.

EXECUTIVE BOARD

PETER MATTIA, MIRIAM RIKER, ANDREW SVENSON, HOLDEN BURNETT,
WILLIAM LIPSTEIN, MARJORIE KNIGHT AND HENRY SCHAEFER.

The Barringer High School Forum has developed into one of the most prominent and interesting clubs of the school. It was organized last year in response to a petition of several of the students of history in the graduating class of June 1927. The faculty questioned the advisability of such a club, but finally gave the students permission to organize one. Miss Belcher was picked as the club advisor, and students of the third and fourth years were allowed to join. Since then, an amendment has been made to the constitution making it possible for pupils of the 2A class who take history to join also. The meetings of this club take place about once a month, and interesting topics of the day, which are being discussed all over the country, are taken up. These meetings are conducted under the chairmanship of members of the executive board. The first meeting this term was held on October 5, under the direction of Miriam Riker. The topic of discussion was the "Value" of a High School Education."

The French Club is probably the oldest club in Barringer, being established twenty years ago.

The aim of the club has always been to try to bring before its members pictures of French life and culture. The club has been privileged in the past years in having for its speakers many eminent Frenchmen. Also two or three times recently Mlle. Quardy has sung French songs much to the pleasure of the members.

When speakers have not been available, student programs have been arranged, including the presentation of playlets, the singing of French songs and the reciting of French poetry.

Now and then the club takes trips to New York to visit French art galleries or to see French plays, after which the club usually enjoys a meal at a French Restaurant.

During the great war, the girls of the club did sewing and knitting to furnish supplies which were sent over to France.

As it may be seen, under the leaderships of Mr. Mezger, Mr. Crosse and Mr. Milwitzky the club has enjoyed many prosperous years.

One of the most active and most enjoyable clubs in Barringer is the German Club. This club was started by Mr. Nicklas, who was, until recently, the head of the German Department. During the recent war the German club was abandoned. After the war, however, Mr. Nicklas again organized the German Club and it continued to act as successfully as ever. Last June, upon retiring from Barringer, Mr. Nicklas handed over the guidance of the club to Miss Smith, the acting head of the German Department, under whom the club is now enjoying one of the most successful years.

The activities and meetings of the German Club have always been interesting and enjoyable. The meetings are under the care of a program Committee, and the members of the German Club have never failed to have a most pleasant meeting. Musical programs, socials and other forms of amusement are furnished by the program committee. Every spring and fall the German Club has its famous outing. This affair has always been a great success, being attended not only by members of the club but also by other pupils of the school and even non-students.

The dues for the German Club are twenty-five cents as for the other Clubs. Anyone who takes German or has taken it for two years is eligible for membership and new members are always welcome. So if you want your stay at Barringer to be a most enjoyable one, join the German Club.

The Spanish Club was organized in 1918 by Mr. Sawyer for the purpose of acquainting the Spanish pupils with the customs and manners of Spain. In order to do this, the Club has resorted to many and varied forms of entertainment ranging from talks by pupils and teachers to elaborate fiestas. The Club has had the pleasure of the presence of many distinguished Spaniards among whom were the brilliant authoress Carolina Marcial Dorado, who wrote "Espana Pintoresca", the well known pianist, Mr. Lawrence A. Wilkins, Director of Modern Languages in New York City and Mr. Arturo Torres, editor of "El Eco".

In 1925 the Spanish Club presented a fiesta, in which native Spaniards from the Spanish colony in Newark, took part. The program consisted of songs, dances and a one act comedy. An especially good program was enjoyed by the members of the Club last Spring in the John Wanamaker auditorium where a Spanish moving picture and a surrounding program were presented. This term the Club hopes to present the moving picture "Jose" together with other interesting programs.

Variety and originality in its activities combine to make the Spanish Club one of the most popular in the School.

The Latin Club in Barringer was formed two years ago by Mr. Haulenbeek. At its beginning, the constitution was drawn up providing that the officers of the club should bear names similar to the old magistrates;-consuls, praetors, aediles, a quaestor, a censor, a scribe and a tribune.

The program of the Latin Club, each term, is most interesting and worth while. Talks are given by the pupils and members of the faculty, on Roman life and various subjects having to do with Latin. Last year the Club put on a most successful play, acted by its own members. Every now and then the club has a recreational meeting, at which time the members play Latin games and sang Latin songs.

Every year this club offers a prize to the graduating pupil who has had the best standing in Latin during the study of Cicero and Virgil.

The Italian Club, because of its numerous membership and its enthusiasm, has assumed a leading position among the clubs of this school. For a few years, its members have numbered over two hundred. Their constitution is drawn up on the foundation of Roman Form.

Efficient committees take charge of the many activities:- a social committee, a reception committee and an entertainment committee. There is also an excursion committee which takes charge of interesting trips taken during the term.

The programs for the monthly meetings are arranged by the Faculty Advisor and a Program Committee. The meetings are usually of a musical character and are conducted by such talented students as belong. At other meetings, slides are shown, picturing Italian scenes and home life.

Chairman of Membership Committee	JANET WARD

The Science Club has had a long and honored history, having been begun in 1912, under the advisorship of Mr. Saylor and Mr. Dumm. Its purpose is to give the pupils of the Science classes a wider scope for the study of Science than is possible in the classes. For this, the club has a great advantage over the other clubs. Being situated in industrial New Jersey the Science Club has the opportunity of visiting the many and varied industries, nearby.

These visits have included trips to the Edison Light Institute, Reid Ice Cream factory and the New York Telephone Company. Besides visiting these plants, the Club has received lectures from many distinguished scientists.

The Service Club

OFFICERS

PRES. PEGGY MILLS
SEC. MILDRED MEHRTENS

VICE PRES. HELEN SEELEY
TREAS. KATHERINE BELL

The Service Club grew out of the Girls' League. It was organized at the suggestion of Mrs. Poland about 1919. As its name implies, its purpose is Service. It serves first the School, and second the Community. Our Service Club is well known for the many fine things it has done. Before this term, the membership has been more or less unlimited, but this term, the membership has been limited to thirty members, and thirty alternates. If any member is unable to attend a meeting, her alternate goes in her place.

The Service Club has been very busy this term. It started off with a more or less social function. On October 29th, it entertained the Service Club of the other Newark High Schools, at a Hallowe'en dance. Then it has sold pins and badges during the foot-ball season, and later, this was followed by a candy sale. Some of the proceeds of these sales went to fill some Christmas boxes. And any time you wanted a box of Barringer writing paper, you just went to a Service Club girl to buy it. Our new Scholarship Club, was sponsored by the Service Club who pays all its expenses.

These are but a few of the numerous things that the Service Club has accomplished this term, so you can see that it is a very active Club. We are proud of our Service Club, and all that it stands for! May it grow bigger and better in the succeeding terms!

Resume' of the last four East Orange games

We, who have been in school for the last four years, have had the good fortune to see Barringer triumph over her traditional rival — East Orange in all four games that have been played during that time. In this short resume, we shall put down for our remembrance, a short sketch of each of the four games played.

As freshmen, we sat eagerly in Ashland Stadium, East Orange, and watched with open mouths and eager eyes that first thrilling game, in fact the most thrilling game of all the four played as the score will show.

Barringer kicked off to East Orange and after having played a defensive game during most of the first quarter we finally received the ball on our own forty yard line, and, with a steady march down the field coupled with some pretty passes, Bill MacDowell crossed the East Orange line after receiving a bullet like pass from Breithut for the first score of any kind against East Orange up until that time. Charlie Harris kicked the goal.

Then East Orange came to life. After receiving the kickoff East Orange, with the indomitable "Red" Owen doing most of the work, carried the ball by straight line plunges right over the Barringer goal line. But "Red's" try for point hit the cross bar and bounced back. Score Barringer 7, East Orange 6. No further scoring resulted during this half altho Owen was in a nice position for a field goal when the half ended.

The third quarter marked another score when, after receiving a poor kick, Barringer got possession of the ball on the Red and Blue's twenty yard line from where our own Freddie Breithut carried it over in three consecutive line plunges. Harris made good the kick, and it was this lone point which gave us our victory. Shortly after this East Orange got another touchdown after the recovery of a Barringer fumble and after a few line plunges, Owen scored on a beautiful run of twenty five yards thru the entire Barringer team. He also kicked the goal. A few seconds later — "Pinky" Clark — East Orange's diminutive quarterback — proceeded to electrify the crowd, by taking the kickoff, and running thru everything, straight for the Barringer goal. He was gradually overtaken after running sixty-five yards, by "Red" Walsh and Bob Knight who made a beautiful tackle and the game was over as far as scoring was concerned, altho Owen kept the crowd up on its feet with his many and near tries for field goals. Thus ended a memorable game with the close and even score of 14-13.

In 1925, we had our most successful record since we have been in school. It was a perfect setting for a Barringer East Orange game. For

both schools, a State championship weighed in the balance and the largest crowd that had ever seen this classic was assembled in the new Newark Stadium.

East Orange led off with a two point lead gained by a safety on a wild pass, but Barringer came right back and marched down the field with line plays and six consecutive completed forward passes. "Skippy" Jamieson scored on a nice run after receiving a pass from Harris. Harris kicked the goal.

After receiving the kickoff, Barringer again scored after a steady march by Jamieson, MacDowell and Harris. Then Jamieson again crossed the goal line on another pass from Charlie. That ended the score for the half.

At the beginning of the second half, East Orange came out with fire in their eyes and proceeded to go around the end on long runs that finally gave them a score when "Blackie" Powell made a pretty thirty-five yard run around the left flank.

The final score came when on a steady march down the field, Harris plunged thru for a touchdown and Barringer went home with three championships tucked in the bag. Score 19-8.

The third game was won on two breaks both of which Barringer converted into touchdowns. East Orange started off early by getting a field goal in the first quarter which was kicked by Oswald. For a while it looked as if this were to be the only score of the game, but in the last quarter East Orange had marched down the field, Jimmie Konkle intercepted a forward pass and ran along the right hand side line seventy yards for the touchdown which put us in the lead. Parker kicked the goal. Soon after, Fox picked up a fumble on East Orange's thirty yard line and skipped the distance for another score, and with that scoring, the game ended, 14-3.

The 1927 game is still fresh in our minds. When game time arrived the field was, as in some former years, a veritable sea of mud, which naturally added a great deal to the looseness of play, and it was the "breaks" due to the weather that finally determined the score. We all remember the thrill of excitement when, with the score 7-6 against us at half time, our team came out and evened things up and more than that — won by the score of 20-7.

While we regret that it has been the misfortune for our friendliest of rivals to have been beaten these last few years in succession, we still are glad that we have never, in our stay at school, seen our old blue banner go down to defeat before the red and blue of our best of friends.

We have always enjoyed the excitement and clean sportmanship of our East Orange friends and even long after we have gone from school we know that the game — win or lose — will always bring for us a sense of enjoyment.

"DAVE" MEYER

In 1924 "Dave" started his activities in sports by being a slave — in other words assistant manager of baseball — thereby earning his B2. Then in '25, he came out for football and earned the varsity tackle berth on the N. J. State Championship team. He returned, a veteran in 1926, playing the same position. Missing the first three games in 1927 due to a State Rule of eligibility, he returned in the fourth game to his old position. In addition he did some excellent punting, and as souvenirs of three successful seasons received as many letters and gold footballs.

"Ox" did not confine himself to football alone, but went out for track also. He started in with field events but ended up in the sprints. He ran leadoff man on the senior relay team which won the city championship and also ran a leg on the senior mile relay team. He was up around the top in total number of points scored for the season, again making his letter and completing a record of which he may well be proud.

"CHUCK" MURRAY

We connect "Chuck's" name with track as it is in this sport that he is best. He first came out in twenty-four, and then as in twenty-five and twenty-six he was laying a foundation for his successful season of 1927. In those three years of hard work, "Chuck" was only able to make his B2, but, in 1927, we find the finished athlete. He was the most versatile trackster on the squad, running on the crack mile relay which won the N. J. I. A. A. championship. Outdoors he lengthened out and ran the "880". In high hurdles, high jumps and javelin, he was in the front ranks. Also he was the second leading point scorer of the season, and when one considers that Captain Athay, only, was above him, this was no mean honor. The Fall of 1927 found "Chuck" out for football, and altho a senior and ineligible at the start of the season, he made quite a record.

A rather eventful career for "Chuck", and Barringer will miss him when the 1928 season rolls around.

"WICK" FOSTER.

"Wick" is another of our famous two letter men, but the sport with which we immediately connect his name is football. He started early coming out in 1924 as a freshman, and again in 1925 as a sophomore. During these years he was a scrub, but finally in 1926, he was substitute tackle, earning his letter and a gold football. In 1927 though "Wick" was the Varsity tackle, playing a great game and getting as a reward another gold football and letter for his collection.

"Wick" did not confine himself to football, but in his senior year turned his attention to baseball. He made the varsity playing the right field position and showing himself to be one of the leading batters. Of course he easily won his letter and his record is one that will go down with many other famous athletes of Barringer.

"CHRIS" BREITHUT.

"Chris" has stuck to football persistently for three years. He has played in various positions each season. For a while he played in the line, but Coach Pritchard had better use for him in the back field. Although he did not have much opportunity for showing his ability, the times that he did get in games he showed to advantage, and in so doing he justly deserves his "B" and gold football which he received for playing in the East Orange game in 1927. "Chris" is an example of that sort of athlete who is rewarded for the strong efforts and earnest attempts he makes in that sport to which he is devoted.

ERLE PARKER.

"Oil's" favorite sport is football — and how! He first came out in 1924 as a lowly scrub. Persistence! — and 1925 finds our hero as a regular first stringer. Although he worked hard and faithfully, he didn't quite make his letter. At last we see Erle in 1926 right there as a regular playing quarterback. Incidentally his drop kicks for points after touchdown were about as dependable as "Old Faithful". In 1927 our heart-broken he-man was out of the first three games for reasons all too painful. But with the joyful news of nullification (you all know of what), he went right on through a most successful season. He garnered his letter and two gold footballs as part of his trophies.

Track also received a part of "Oil's" attention. In his senior year, he came out and proceeded to burn up the cinders. His specialty was the 440 and he was on the N.J.I.A.A. championship relay team. Of course he made his letter, and concluded his very successful career in athletics.

"VAN" SMITH.

"Van" came out for football in '23, '24 '25 and '27, and his persistence finally won him his letter and a berth at end in the latter year. His specialty, on the offensive, was catching forward passes which were seemingly impossible to reach.

"Van's" career in baseball was similar to that in football. He earned his letter in '27 after coming out in '23 and '24. He played first base and was a pinch hitter.

Major sports, alone, did not receive all of "Vans" attention. In '24 and '26, he was appointed cheerleader, and although not on the field, he did his share in winning the games. "Van" also was elected captain of the bowling team in '26 and '27. This bowling team is a new organization and has played many interesting matches under "Van's" management.

And so another athlete who has participated in the various sports passes from the service of his Alma Mater.

"RUGGED" NEARY.

Our President came out in 1924 for one of his successful sports — football. That year and 1925, found him developing with the scrubs, but in '26 and '27, he made his letter playing halfback in which position he was a reliable ground gainer, finding himself with a couple of gold footballs and his letter as souvenirs of a successful football career.

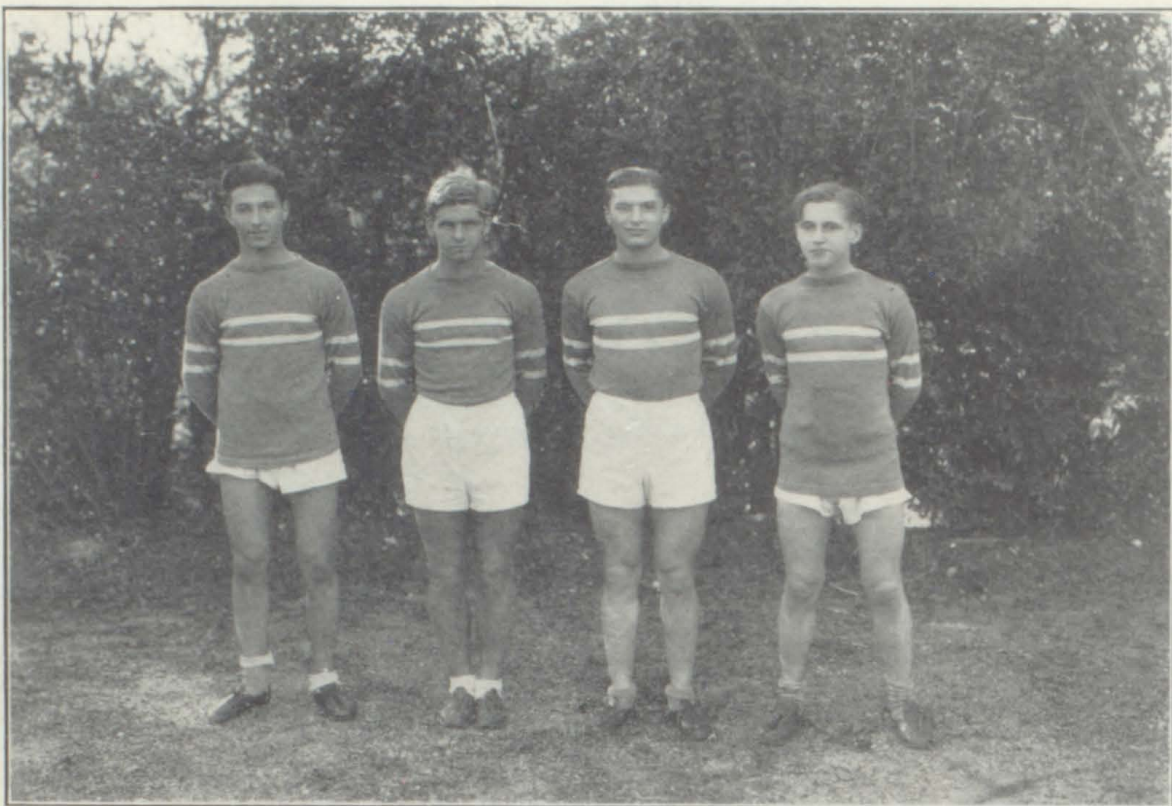

In 1926, he showed up quite well in baseball, but in 1927, he cast his choice for track as his spring sport. This was a wise choice as "Rugged" developed into a star miler, winning the city championship and coming in second in a very close finish of the N.J.I.A.A. mile. His letter in track was another to add to the collection, and in earning it, he closed an historic career in athletics.

"EDDIE" GATSCH.

"Eddie" is the only athlete graduating this term who has devoted himself to baseball alone. But this specialization has wrought "Eddie" into a player who may be depended upon and who is genuinely good. When "Eddie" is out on the diamond one may be sure of seeing a good game, and it is because of his ability as a player and leader that he was chosen captain during 1927. After playing on the '25 and the mediocre team of '26, he came back in '27 to lead his team to a most successful season. This past season Barringer was runner up for two championships in baseball, both the N.J.I.A.A. and the city championship and a good deal of the success can be attributed to "Eddie". Needless to say that with the coming of spring '28, when baseball uniforms are taken from the moth balls, the team will miss him, as his graduation leaves a hole in the infield that will be anything but easy to fill.

THOMAS CIFFELLI.

"Tommy" is another script B man. He, too, received his letter for cross country. In both 1926 and '27, he ran in all the meets in which the school was entered and made a very creditable showing. Baseball also received some of his attention when he went out for the team in 1925. He kept in condition by being active in interclass soccer and baseball.

HENRY SAUNDERS.

"Hank" is also the owner of a script "B" gained in cross-country. He too, was on that championship cross-country team of 1926 and ran consistantly in every meet. He went out for track for the years 1925, 1926, and '27 and gained a few points in the half mile in which he received his B2. He was always a concientious worker and deserves every bit of the glory he received.

JOE HABERMAN.

"Joe" entered Barringer in 1925 from Manual Training High School in New York, and immediately plunged into Barringer athletic activities. He came out for cross country in that year, and in 1926 made the varsity team. His letter was made in the meet in which he helped us gain the city championship. Considering that "Joe" has been such a consistant performer, Barringer will miss him next year.

MILTON SCHNEIDER.

"Milt" has been one of Barringer's most persistant athletes. He tried football in 1926, but it is with track and cross country that his name is usually associated. He made his script "B" in 1926 in cross country, being on the city championship team. In track, he participated for three years, and, though he scored a few points every year he was out, he never had quite enough for his letter. His specialties were the mile and half mile and he made two "B2's" as rewards for his excellent work and assistance.

"EDITH" SCALERA

"Edith", although small, is one of our famous athletes. She has always taken a great interest in her gym work and has earned all her cords. This means a gold tassel at graduation. She has been a gym captain all through her gymnastic career. "Edith" has been active in basketball, but hockey seems her specialty. Accordingly she became captain of the Junior hockey team, and is now manager of the Senior hockey team. She took part in the stadium exhibitions '25 and '26, gym exhibitions '25, '27 entered our gym meet '27 where she won a "B".

KATHERINE RILEY

"Kay" is one of our few girls who will receive a gold tassel. This is a reward granted for her good work in gym as a captain during all four years. "Kay" has taken part in Stadium Exhibition '25 and '26, Gym Exhibition '27, basketball '26 and Freshman hockey team.

"TEDDY" SCHMIDT

Are girls' athletics ever thought of without "Teddy"? She has been the rock of our gym meets. Back in '25, she won a "B" for long distance basketball throw; in '27 she won two more "B's" She has taken part in the stadium exhibitions of '25, '26, and the gym exhibition of '27. In her senior year, she was the captain and received her senior cord. "Ted" played on the hockey team in '26 and '27, but centered her interest in basketball, where, as forward, she aided her senior team to victory several times. For her work on the team, she received a gold basketball.

OLIVE DAVIS

Olive won her "B" for the rope climb in one of the indoor meets. She took part in the gym exhibition of '27, and certainly did shine in her rope climbing stunts. Olive was also in the stadium exhibition '25 and '26, and in the gym captain parade of '26. She is an active basketball player and plays a steady game of hockey.

The story is told of a young bride who asked her husband to copy off a radio recipe she wanted. He did his best but got two stations at once, one of which was broadcasting the morning exercises and the other the recipe. This is what he took down:

"Hands on hips. Place one cup of flour on the shoulder, raise knees and depress toes and mix thoroughly in one half-cup of milk. Repeat six times. Inhale quickly one-half teaspoon of baking powder, lower the legs and mash two hard-boiled eggs in a sieve, exhale, breathe naturally and sift into a bowl.

Attention! Lie flat on the floor and roll the white of an egg backward and forward until it comes to a boil. In ten minutes remove from the fire and rub smartly with a rough towel. Breathe naturally dress in warm flannels and serve with fish soup."

A Black Hand letter addressed to a wealthy match and cigarette man demanded \$25,000. Failure to comply with the demand was to result in the kidnapping of his wife. Through an error the missive was delivered to a poor laborer by the same name, who replied, "I ain't got no money, but I'm interested in your proposition."

Memoirs of the inseparable two

We, graduates of Barringer High School, of the class of January 1928, after having roamed the seven seas, and wandered over distant lands in quest of adventure and romance, do set ourselves down to write this, our true chronicle.

Before going further into this history, we wish our dear readers always to bear in mind the old adage, "Truth is stranger than fiction." Also for certain reasons, we wish our identities to remain concealed.

At midnight, July 2, 1928, we sailed on the good ship "Dilda", bound for Algiers, Africa, with a heavy cargo of passengers. A few days later we landed at the sleepy port, Africa, the dark continent. Had we but known what Fate had held in store for us, we would never have embarked on a voyage so fraught with dangers and perils.

At this town, in a foolish moment, we signed up in the French Foreign Legion. Mon Dieu! Five years of a living death were ahead of us, unless death itself should end our hapless lives. As you all are acquainted with the Foreign Legion, either through fiction book or cinema production, it is quite unnecessary to elucidate the terrific training given us. It suffices to say that we bore up under the tremendous strain only because of our rugged physiques. Had we not lived outdoor lives in constant association with danger we might have joined those hopeless ones in our ranks who were driven to their deaths. There is no sympathy in the legion.

But we, American citizens, were not going to endure five years of this life; so, after serving two years in the legion during which we participated in the defense of Port Zinderneuf, besides many skirmishes with bloodthirsty Arabs, we deserted. Desertion in the Foreign Legion is more like jumping from the frying pan into the fire.

Our experience with such conditions stood us in good stead, so after many hairbreadth escapes, we finally reached the coast and a ship two jumps ahead of the French officers. But Fate seemingly was against us, for we found out the ship was bound for the Cape of Good Hope. We left the ship at the British possessions of the Union of South Africa.

We next set out for the diamond fields and met with tremendous success, rivaling even the most experienced working men. This was due to our ability to cope successfully with novel situations.

But the wanderlust came upon us again and we had to obey it. This time we were off to Australia. With all the money we had made from the diamonds we led an easy life. In fact it was too easy and tame for our adventurous spirits so we traveled north to the East Indies.

Here we had our fill of adventure and were able to put in some big game hunting with such success that we were admired and looked up to wherever we went. At this point in our travels we decided to

return home and embarked on a ship with New York as its final destination.

We were not to get off so easy however. A sudden and terrific hurricane arose, such as only the South Seas knows, before we were three days out. The ship was entirely helpless before such a manifestation of Nature's wrath. Even our broad experience could not aid the crew, so for several days and nights we traveled with the storm until we were wrecked on the coast of India. Alas, we were the sole survivors of the ill-fated ship. We were lucky to get away with our lives although we grieved for our fortunes that went down with that ship and we felt lonesome indeed. We were far away from any settlement and we knew not in which direction to head. So we finally chose to push into the interior. For days we lived on berries and what little game we could kill. Again our magnificently trained physique stood us in good stead in this hour of need.

After a long time we came to a high range of mountains and with a little difficulty, crossed them. We afterwards learned that they were the awe — inspiring Himalayas. With no preparation at all, we had accomplished what only a few expeditions, at a great loss of both men and equipment, had done before us.

Now we were in Thibet, from which no white man had come out alive. At times we were set upon by bands of bandits, but we always succeeded in either beating them off or eluding them. Finally we were in a dire predicament. Undermined in health and weakened by much battling and lack of nourishment, we presented a sorry spectacle indeed. We then decided to seek the aid of a friendly native until we were again able to continue on our journey. We were fortunate indeed in not being killed by the native on whom we placed such faith. He took us in, fed us and treated us with herbs known only to the Thibetans.

In a few days we were feeling fit again. During our period of recuperation we were able to master the language so that we spoke so fluently not even a native could have detected our foreign birth. During our recuperation also, we discovered that our host belonged to a band of brigands. We overheard them at a meeting one night, and, disguised as natives, we entered the group. We assured the men we were natives who wished to join their band. So eloquently did we speak that we were admitted and it was not long before we were two chiefs sharing equal power.

Our next move was to take our band and lead them across China to Siberia where we said good bye to those who unknowingly had been our protectors.

In Siberia we were seized by the Soviet government on suspicion, and put to work with many other prisoners in the salt mines. Our ability to learn quickly a language gave us the Russian tongue. To escape from the hands of the Russian government we finally decided to incite a revolt. This we did, and although the revolt was put down, we managed to escape on two horses which we took from soldiers.

Here we were, two daring young men, with no food, no friends,

and no cents. We plodded on our horses from the mine to Vladivostok, Here we boarded a freight train bound for Berlin. We had a hard job holding on to the airbrakes under the train. About a week later we arrived in Berlin.

With a desire to better Lindberg's famous flight, we determined to obtain financial backing for a westward flight across the Atlantic. We visited the principal cities of the Continent seeking someone to back us up. Finally the generous government of France gave us an airplane equipped with the most modern devices for such a perilous flight. So it was on that famous month of May, that we left LeBourget flying field and winged our way westward over the mysterious expanse of the Atlantic.

We reached New York about ten hours later but discovered that we had gas enough to take us back to Paris, because of a gas-saving device that we had invented. We circled New York and the four corners of Roseville and then headed back towards Paris which we easily made by the next morning. We were received with wild acclaims by millions who had the honor of welcoming the first non-stop round trip between New York and Paris flyers of the universe.

Our European trip was finished by a visit to Spain. It was in this country that we easily surpassed the leading bullthrowers of the world and even went so far as to establish new records. We were asked by the Spanish Society for the Preservation of Fighting Bulls to leave the country before the fighting bulls became extinct.

We next went back to Paris where we received word from Washington that the Atlantic and Pacific fleets were on their way to escort us home. This saved us the embarrassment of borrowing money to pay our passage home.

We arrived home in due time and started a long string of banquets and concerts given in our honor which did not end until the next year. Fortunately for us, all this admiration and honor did not go to our heads as some jealously, had hoped and today we may be seen as ever given to simplicity and the telling of the plain truth without any embellishments when ever we speak of our adventures.
